Undergraduate (Planned)
I plan to enroll in Computer Science and Engineering (CSE) at a reputed private university in Dhaka.

ABOUT ME

Since I am learning web development and still I am growing day by day by taking extreme challenges. I am also happy to introduce myself as a programmer.

EXPERIENCE

MERN Stack Developer (Ongoing)
Programming Hero (Online Course)
June 2024 - Present

.Actively learning and building web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).

Completed various hands-on projects including e-commerce websites, task management apps, and real-time chat applications.

Gained practical experience in integrating front-end and back-end technologies to develop dynamic, full-stack web applications.

Continuously improving problem-solving skills and following best practices in coding, debugging, and version control (Git).
